IQAC - Student Feedback survey Results

2021-2022

Feedback sessions were conducted by each department of the college at the end of the academic year. Students were encouraged to participate in the session responses were received from a total of 850 students. A total of 15 questions were asked on a 4-point scale such that 4/4 is the highest and 0/1 the lowest response category. The question covered three broad aspects. Teaching learning process, college infrastructure and facilities and overall college environment for students growth.

For teaching learning process, 95% of the students responded that the teaching can be best described as good, very good and excellent. 40% rated the teaching as excellent. Also 94% of the students agreed that teachers are thoroughly and satisfactorily prepared for their classes. 84% of the students agreed that teachers mostly use example and applications to explain concepts. 83% of the students found teachers to be largely effective in communication. 60% of the students responded that 85% to 100% of syllabus is covered in the class. Additionally, 23% agreed that more than 70% of the syllabus is covered. 49% of the students found the evaluation to be always fair and 40% found it is usually fair.

The students were asked to rate the following facilities on a scale of 1-4 (1- Unsatisfactory, 2- Satisfactory, 3-Good, 4-Excellent); hostel, sports facility, seminar room./auditorium in college, medical facility, classroom facility, laboratories facilities, library facilities, drinking water/.washrooms/elevator, security. Canteen facilities, student societies, student support and welfare facilities. The responses were largely ranging from very good to average. For the library facilities 80% of the students have responded that the facilities are very good (5) and good(4).

With regard to the overall environment of the college, students were asked to rate on a 4 point scale (Strongly disagree to strongly agree). Whether the institution makes effort to engage students in the monitoring, review and continuous quality improvement of

the teaching learning process, whether the institution provides multiple opportunities to learn and grow and whether the institute takes active interest in promoting internship, student exchange, and field visit opportunities. In response to these 30-40% Excellent, 25-30% Good and more than 20% are neutral. The results suggested that largely students appreciate and benefit from the institution's constant effort to facilitate their growth.

Questions were also included on use of ICT tools by teachers and satisfaction level with ICT platform used during the pandemic and otherwise. It was observed that the use of ICT tools can be expanded further and student experience can be enhanced. Most students agreed that their queries related to ICT platform were addressed.
