REPORT ON EVENT

TUBERCULOSIS AWARENESS PROGRAMME

Awareness Programme on Tuberculosis was conducted in Ganesh College of Engineering. Over 170 students of our college were participated in this awareness session. This session was handled by Mr. Ramkumar, Block officer, Valappadi Block. Medical it was shown to the students. Free medical centers, Govt, Schemes and cost less medicines, were discussed in this session.

Tuberculosis (TB) is a bacteria infection spread through inhaling tiny droplets from the coughs or sneeze of an infected person. It mainly affects the lungs, but it can affect any part of body, including the tummy (abdomen), glands, bones and nervous system. Each year, the WHO global TB Report provides a comprehensive and up-to-date assessment of the TB epidemic, and of progress in prevention, diagnosis and treatment of the disease, at global, regional and country levels. This is done in the context of global TB commitment, strategies and targets. There are two type of TB conditions. TB disease and latent TB infection. But, if their germs become active, they can develop.
